Euskotren service quality commitments to the users of the Larreineta Funicular Railways

- 1. Service Vocation
- 2. Our Commitments to You
- 3. Participation, Complaints and Suggestions
- 4. Where to Find Us
- 5. Applicable Legislation

Euskotren, the leading public transport operator in the Basque Country, aspires to grow substantially in the near future on its metric-gauge network in the Basque Country, by providing greater frequency, transporting more freight by rail and offering rail, funicular and other network services. This will all be underpinned by economic efficiency and sustainable management criteria, thus contributing to the advancement of society in general.

The Euskotren purpose is to operate the transport concessions that were transferred by the Spanish Central Government to the Autonomous Government of the Basque Country, pursuant to Decree 2488/78 of 25 August. The corporate purpose of Euskotren, the trade name of the company adopted in 1996, is fundamentally focused on managing the road, funicular and rail transport services of passengers and freight, in the territorial scope of the Autonomous Community of the Basque Country. The company uses the Euskotren brand to run the Larreineta funicular railway.

We are undertaking numerous actions to address the challenge of reforming and modernising public transport. These include actions aimed at facilitating and improving the sustainability mobility of the citizens, with priority given to Safety & Security and to Service Quality, as regards our levels of operations and of responsibility. Our customers are already enjoying and warmly welcoming the results that are, step by step, being achieved.

We regularly listen to our passengers, take on board their reasonable expectations and seek the best responses. Their help is our best guarantee and stimulus to continue improving Safety & Security and Service Quality.

Thank you on behalf of Euskotren and society in general for helping us to improve the Quality of our Services.
